Target Audience

The Sentry-go Event Log Summary Wizard is aimed primarily at System Administrators and support professionals who wish to retrieve event & error information from one or more PCs/Servers in their enterprise – either for specific diagnostics or for preventative & health-check measures.

System Requirements

The Sentry-go Exchange Mailbox Summary Wizard can be run on ...

- Windows NT v4.0
- Windows 2000
- Windows XP or above
- Windows Server 2003 or above

Software Evaluations

You are welcome to download and evaluate any Sentry-go utility or Wizard for 21 days free of charge. Simply access <http://www.Sentry-go.com/software-downloads.htm> and select the product(s) you wish to evaluate.

Evaluations are time coded and may be limited to the number of items processed. However, in other ways they are identical to the main product.

Installing

The Wizard comes via Electronic Software Download (ESD) as a single ZIP file. Simply expand this file into a directory & run Wizard's executable application. When first run, the Wizard will configure itself & prompt you to enter your licence key details.

Running the Wizard

To run the Wizard, simply run the utility's executable file to display the options window.

Specifying Options

The Wizard's primary options window allows you to specify the servers & Event Logs you wish to scan as well as search criteria and output options ...

Purchasing

Sentry-go Wizards & Utilities can be purchased on-line at <http://www.Sentry-go.com/buy-now.htm> using a credit or debit card. You can also receive an on-line quote or find instructions on using a Purchase Order from this web site.

Custom Monitoring, Utilities & Wizards

In addition to this and other Wizards, utilities & monitors, we offer bespoke software development, allowing you to tailor the solution to meet your specific needs - at a cost much cheaper than you might expect!

To request a quotation or find out more, simply contact us at the address below, or visit the Sentry-go web site at <http://www.Sentry-go.com/build-a-custom-monitor.htm> and tell us more about your requirement.

About 3Ds (UK) Limited

Established in 1998, 3Ds (UK) Limited is a software house & consultancy specialising in easy to use, affordable monitoring solutions for both Windows Desktops & Servers through our Sentry-go® technology.

As software consultants, we also specialise in the latest client/server, n-tier, web-based & .NET technologies. We work either independently or alongside your own developers, offering a number of key services vital to the successful **D**esign, **D**evelopment & **D**elivery of **S**olutions. We have many years of experience in implementing robust, flexible and efficient solutions into new environments as well as integrating the same solutions with client's existing & legacy systems.

Why Choose 3Ds ?

3Ds is proud to be an independent consulting & software house based to the south of London in the United Kingdom. We believe that this allows us not only to respond quickly and effectively to our customer's specific needs but also guarantees that you can reach the right person with the right skills at the right time. We won't pass you from team to team & person to person in order to get an answer!

Our Sentry-go monitoring solutions are used by companies world-wide. In addition to these, we also offer other a number of others services ...

Within the UK

- Software development using the latest Windows, .NET & web-based technologies.
- Consulting services for development, project, or support-related issues.
- Additional product training.
- Customised training - for Sentry-go software, O/S, Technical Support, programming & technologies etc.

World-wide

- Software customisations & enhancements, in order to integrate Sentry-go with your existing & in-house systems.
- Custom monitor development.
